Why should people attend Relationship Lifeline?

We all carry the baggage of our past throughout our lifetime. Relationship Lifeline has helped over 4,000 couples over the past 20 years better understand themselves as individuals, identify issues potentially coloring their perspective, and reconnect with their partner in order to have a more fulfilling relationship. Our time tested, experience-based learning weekend truly works! Participating in exercises and experience processes will deepen learning beyond traditional methods. Our after care programs and alumni association help ensure alumni continue the relationships of their dreams for the rest of their lives. No other program is as effective as Relationship Lifeline, but for a point of comparison, it has been said to be the equivalent of two years of therapy – but at 1/10th of the cost.

Who should consider attending Relationship Lifeline?

Relationship Lifeline is equally as effective for healthy couples to take their relationship from good to great. Couples often develop a better appreciation for each other, more effective communication, and a deeper emotional connection than they ever thought was possible. If you are not currently married, Relationship Lifeline will prepare you with the tools for a healthy relationship whether it is as a married couple or maintaining a positive coparenting environment for your children after a divorce.
